

LETTER OF INTEREST

Dears,

please allow us to introduce our company group ECOONE. We deal with innovations in the field of drinking water production with an impact on human health. Innovative products reduce the carbon footprint and electricity costs, improve air quality and also produce their own clean drinking water. With our products you can achieve 100% independence from drinking water supplies.

We are now developing typified utility models using renewable resources and their production to re-green the desert. With a focus on renewable biochar, hydrogen technologies and geo engineering. And commodities based on production for a sustainable circular economy.

The fundamental idea of our company is to combat climate change with sustainable projects and to increase the standard of living of the population in the targeted regions. Focused especially on water security, food security, economically self-sufficient, CO2 reduction + emission allowances, clean hydrogen energy and floating city expansions.

WHOLE ECOONE COMPANIES GROUP

2000 - ECOONE - Established

2016 - ECOONE Deutschland GmbH (BRD) – HQ offices

2017 - ECOONE EUROPE s.r.o. (CZE) – Manufacturing factory

2022 - ECO 1 Middle East L.L.C (UAE) – Offices and showroom

2023 - ECOONE Egypt (EGY) - Manufacturing factory

ECOONE PROFILE INTRODUCTION

- 23 years on the market guarantees many years of experience in many areas
- Constant improvement of products reflecting the CO2 footprint
- References to realized projects throughout Europe
- Energy consulting according to the latest trends
- Growth of the company abroad world countries
- Developing new technologies
- Thermal lift block know-how

PATENTS AND UTILITY MODELS

- 2018 - The method of heating regulation depending on the difference between the temperature media in the building and the equipment intended for regulation
- 2021 - Device for regulating heating depending on the temperature difference of the heating medium in the building
- **2022 – New patent for targeted cloud formation**
- 2023 – CE Paolo Timber Pontoon System

IMPORTANT CONFERENCES

- 2018 - Effective Houses+ conference in the presence of the German ministry
- 2018 - European major partner and speaker of the Prague CO2 Congress
- 2019 - Polish African Business Achievement Awards with UNICEF representatives
- 2020 - Central Bohemian Innovative Center conference water management
- 2021 - SWISS forum: Egypt and North Africa

IMPORTANT TENDERS AND SMART CONTRACTS

- 2014 - Signing a mandate agreement with CTU – UCEEB for the purpose of improving development and research
- 2016 - 2018 EKIS program EFEKT advisory and consulting activities for the Ministry of Industry and Trade
- 2017 - Certification from DEKRA - ISO 9001:2005 and 14001:2005

EUROPEAN DONATION FONDS

- 2017 – subsidy development of the method for evaluating savings in the heating industry"
- 2018 – subsidy Analysis and proposal of adaptation of the QUERYTHERM system for industrial operations
- 2021 – Covid Rise Up 1.0 - development of a new anti-coronavirus unit QWC20
- 2020 – 2023 subsidy development QUERYWATER of an atmospheric water generators for winter water production
